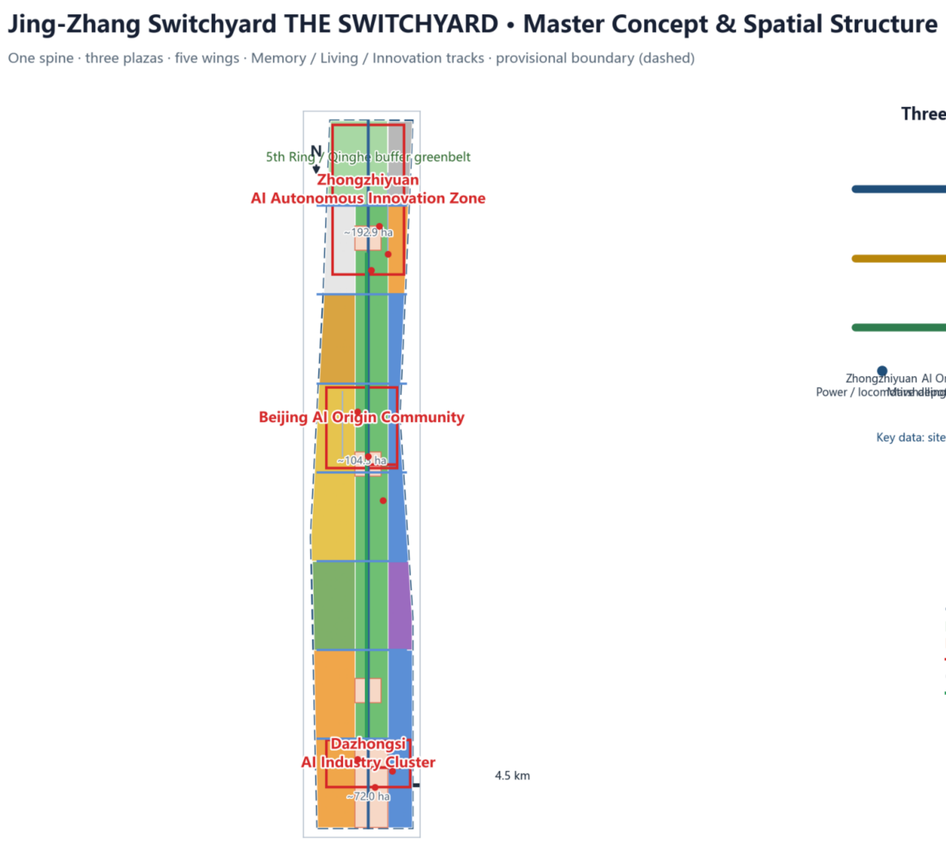
Jing-Zhang Switchyard THE SWITCHYARD — A City-AI Interchange on a Century-Old Railway

One spine three plazas five wings · Memory/Living/Innovation tracks · three zones two wings loop · three pilgrimage landmarks · 12 AI scenario nodes

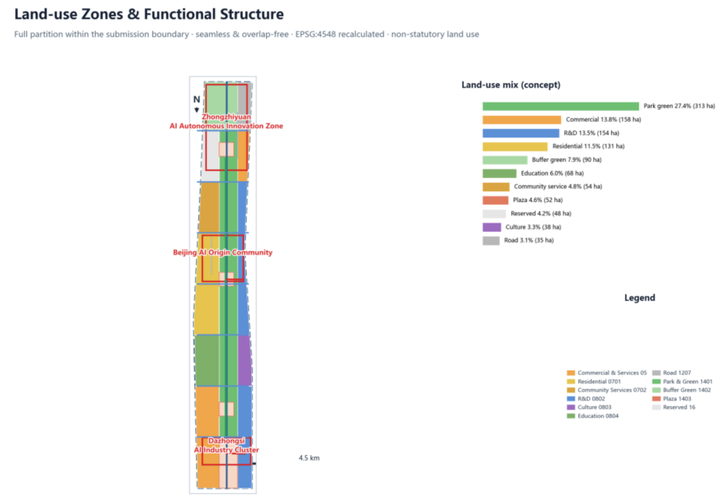
Submission boundary 11.4 km² (provisional) · key areas 368.4 ha · green ratio 35.3% · public space 7.6% · concept FAR 0.72 · phases near/mid/far

Master Concept



Source: provisional_boundaries.geojson & submission geometry (displayed EPSG:4326, recalculated EPSG:4548). Provisional boundary — display and design discussion only, not a redline.

用地 Land Use

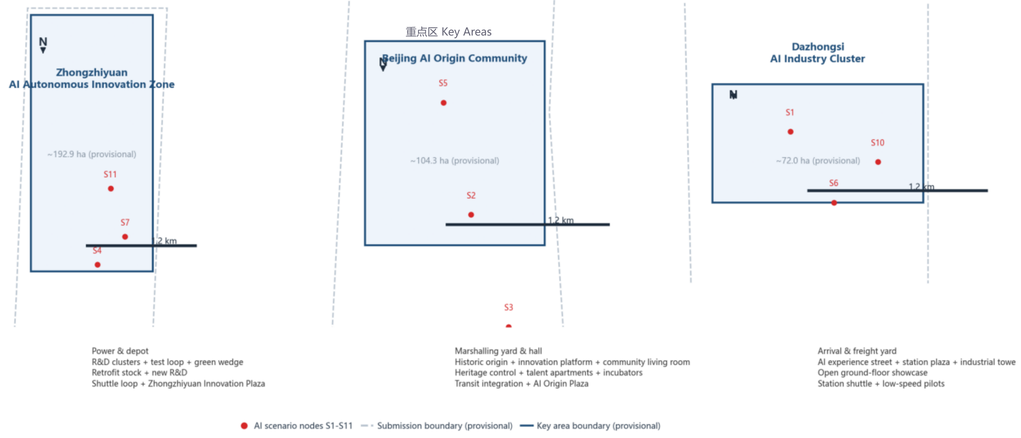


Source: geometry/land_use.geojson (EPSG:4548). Provisional boundary for display and design discussion only.

Key Area Detailed Design Index

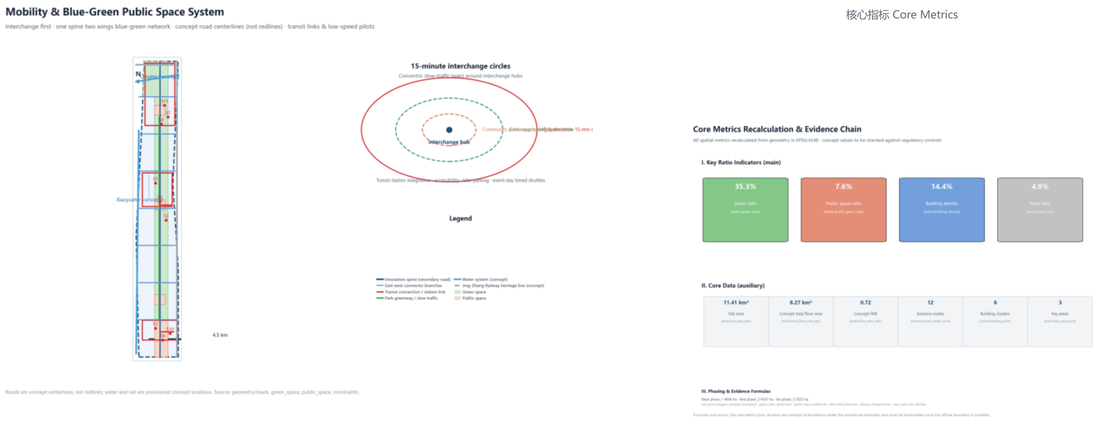
Provisional boundary · design discussion only · per area: positioning + spatial structure + building renewal + mobility + public space + AI scenarios + implementation risks

重点区 Key Areas



All key areas use provisional polygons for directional design only; implementation risks (5th Ring/Qinghe ecology, heritage scope, property rights, transit integration) require official confirmation.

交通与蓝绿 Mobility & Blue-Green



Roads are concept centerlines, not redlines; water and rail are provisional concept locations. Source: geometry/roads, green_space, public_space, constraints.

核心指标 Core Metrics

Formulas and source_files see metrics.json; all areas are concept recalculations under the provisional boundary and must be recalculated once the official boundary is available.

Concept: turning the herringbone switch of the Jing-Zhang Railway into a public interchange device between city and AI; three positions map to three tracks, five functions to marshalling-yard roles, and three zones two wings form a production-convergence-transformation-rule-test loop.

Renewal strategy: retain parks and heritage, retrofit inefficient buildings, build new key nodes; reserved land as flexible reserve for the AI era.

Long-term operation: SWITCH FEST, quarterly Switch Days, developer community, open scenario whitelists, public experience at three pilgrimage landmarks; regional synergy & ecosystem map see A3 booklet.

Agent: Switchman · GitHub: xuqingsakura · 2026-08-09 · v0.4 · Open co-created concept, not a government-approved conclusion; provisional boundary.
